Domein informatie

.es - Spain
Spanish .ES domain name registrar

.ES is the extension to register a domain name for Spain. SecureOnline is official member of RED.ES (ESNIC). We can register, transfer or change your .ES domain name quickly and efficient.

.ES registration requirements

Everyone in the world can register an .ES domain name.

Are there specific requirements to register a .ES domain name?

Minimum 3 characters. Maximum 63 characters. At least one character has to be in the domain name (not only numbers). You can't start or end an .ES domain name with a ("-") sign.

Are IDN domain names supported for .ES domains?

Yes, the folowing characters are supported: á, à, é, è, í, ï, ó, ò, ú, ü, ñ, ç and l·l .

The Registry for a .es domain name you can find at http://www.esnic.es/.

Additional .ES information

Minimum registration period:	1 year
Transfer policy:	A .ES transfer does not include a renewal of the domain. The registration period will remain intact, the domain will be renewed on the original expiry date.
Deactivation period:	After deletion or expiration, a .es domain will go into a status of "Desactivado temporal" for a 10 day period. The domain will be offline and no changes to the domain are possible. During this period, the domain can be restored by SecureOnline. The costs for this reactivation are EUR 5,00.
Domain contacts:	The admin, billing and tech contacts have to be private persons, company names are not allowed for these contacts. For the registrant contact, a company name is allowed.
Contract required?	Yes
